Runoff from heavy rainfall continued to cause flooding on streams and creeks, with sand bagging on Bohemian Creek in Protivin.

MINNESOTA, Southeast

OLMOTER COUNTY AS NIN POSITED 144 O4 OS ASI

A nearly stationary front across the region was the focus for thunderstorms across northeast lowa during the late afternoon and evening of August 19. Excessive rainfall amounts of 2 to 5 inches in two to three hours caused flash flooding. Allamakee County was included in a Presidental Disaster declaration.

HOUSTON COUNTY 1.2 SW HOKAH [43	0.76, -91.35] 08/18/07 20:30 CST 08/19/07 06:00 CST	30	27M 0.75M	Flash Flood (due to Heavy Rain) Source: County Official

At least 50 mudslides were reported across the county with four state highways and eight county roads closed. At one point 20 roads were closed across the county. Some homes collapsed or were carried away by mudslides. Numerous railroad tracks and bridges washed out. There were numerous reports of injuries. Hardest hit communities included Houston, Hokah, La Crescent and Brownsville. A 25 foot earthen dam near Hokah, which was built in 1921, collapsed. This caused significant damage to a portion of the town, including the main park and an automobile dealership. First calls of flooding began around 9:30 p.m. Saturday August 18 to dispatch center, with flooding problems becoming exceedingly worse afterwards.

4,200 homes were reportedly damaged or destroyed.

HOUSTON COUNTY 2.0 W LA CRESCENT [43.83, -91.32]					
08/18/07 21:00 CST	1	3M	Flash Flood (due to Heavy Rain)

A man was killed when he attempted to cross flood waters with two others in his vehicle. The car was washed away on County Road 6 near Pine Creek. His two female companions were rescued but the victim's legs were pinned under a part of the car and rescue workers could not save him. Several rescue workers also became caught in flood waters which swamped at least two rescue boats. This all occurred during the early morning hours of Sunday, August 19th in darkness.

Highway 26 from La Crescent to the Iowa border, Highway 16 from La Crescent to Hokah, and Highway 61 north of La Crescent were all closed by flood waters and damage.

Direct Fatalities: M37VE

HOUSTON COUNTY 3.5 ENE HOUSTON [43.79, -91.51]

A 55-year old man was killed near Storer Creek when his mobile home was swept away by flash flooding. The man had been asked to evacuate twice before flood waters swept him and his home away. The normally tranquil trout stream was about 80 yards wide and 7 to 8 feet above nearby bridges.

Direct Fatalities: M55MH

WINONA COUNTY 1.5 SSE LEWISTON [43.96, -91.87]					
08/18/07 21:48 CST	6M	Flash Flood (due to Heavy Rain)			
08/19/07 06:00 CST	0.25M	Source: Emergency Manager			

Flash flooding and mudslides were common from the Elba area through Whitewater State Park and into the Lewiston area. Numerous mudslides occurred with many roads closed. Debris slid down hills and blocked drainage areas making flooding worse in many areas. A car was stuck in high water on County Highway 29 at some point.

Highway 74 in Whitewater State Park completely washed out. About 500 campers were evacuated that evening, but about a dozen campers were stranded at a primitive campsite overnight. They were rescued the following morning. The state park lost 3 bridges and there was extreme damage to campgrounds, rest rooms, a group dining hall, and the septic and water systems totaling at least one million dollars. The flood system installed at the park did activate that evening.

Many area creeks and trout streams were heavily damaged.

WINONA COUNTY STOCKTON [44.03, -91.77]					
08/18/07 21:4	18 CST	22M	Flash Flood (due to Heavy Rain)		
08/19/07 06:0	00 CST	0.20M	Source: Emergency Manager		

Flash flooding hit all the creeks and drainage areas hard that begin near the Interstate 90 area in Winona County. Garvin Brook and other creeks that flow into Stockton became terrain-changing flowages that washed out numerous roads, created massive mudslides, took out bridges, damaged railroad tracks, and washed away some homes.

Most homes in Stockton had severe water damage as flood waters roared through town.

Erosion problems were also noted south of Interstate 90 in the Hart area. Many roads, including Highway 43, were closed for several days.

Numerous streets were flooded. Sand bagging was needed with some street closures. Several nearby bridges were badly damaged and railroad tracks were bent out of place. Highway 14 was closed at Highway 42 due to flooding and residents of the Eyota trailer park were evacuated.

In Eyota specifically, 16 of 20 business had damage, 600 of 716 homes had at least water damage, and in most basements there was 18 inches to 5 feet of water

#### WINONA COUNTY --- LEWISTON [43.98, -91.88], 0.5 W WITOKA [43.93, -91.63]

08/18/07 22:25 CST 5 0.30M Flash Flood (due to Heavy Rain) 08/19/07 06:00 CST 0.13M Source: Law Enforcement

Five fatalities were reported from people driving into flood waters. Two fatalities occurred near Witoka when a couple's vehicle fell into a chasm along County Road 17 that had opened when flood waters washed out the road. Near Stockton, two fatalities occurred when a couple's vehicle was swept away by flood waters from Garvin Brook. Near the Enterprise rest area on Interstate 90, a man was killed when his vehicle was washed away by flood waters along Rush Creek.

Direct Fatalities: M67VE, F66VE, M37VE, M79VE, F67VE

#### FILLMORE COUNTY --- RUSHFORD [43.82, -91.77]

Heavy rain that was centered north of the county caused Rush Creek to flash flood on historic levels. In addition to Rush Creek, every other creek that leads into Rushford had tremendous accumulation that led to flood waters raging into town. The water backed up against the levees normally used to keep flood waters out from the nearby Root River and ended up flooding most of the town, including the entire downtown area.

In Rushford specifically, two thirds of the town was under water at some point. About 300 people had to be rescued. 490 of the 766 homes were flooded or had damage (79 were declared structurally unsound). 58 of the 70 businesses in town were damaged impacting nearly 500 of the 600 jobs in town. A total of 4 churches and 40 apartment buildings were also impacted.

Damage was widespread across the county, especially the northeast parts. Infrastructure was hit hard with numerous road closures and bridge damage. Numerous mud slides were reported. At least 704 homes applied for FEMA assistance.

#### WINONA COUNTY --- 0.5 NW WINONA [44.06, -91.66]

08/18/07 22:35 CST 12M Flash Flood (due to Heavy Rain)
08/19/07 06:00 CST 0.45M Source: Emergency Manager

All drainage areas leading into communities in eastern Winona County experienced tremendous flash flooding. State Highway 43 was washed out just south of Winona. In addition, more than 300 residents were evacuated from their homes in Goodview due to high water. In Minnesota City a railroad bridge was ripped apart by Garvin Brook and a highway bridge through town suffered major damage on each end. Railroad tracks were warped or pushed clear out of position. Major erosion was seen.

#### WABASHA COUNTY --- ELGIN [44.13, -92.25]

Flash flooding quickly hit area creeks, even into the Millville, Plainview, and Zumbro Falls area. Several roads were closed as flood waters peaked overnight including damage to some businesses and homes. A few mudslides hit County Roads 2 and 11, among other areas, including a huge boulder that washed on to a road at the start of the flooding. At least 44 families were impacted in Elgin with lower numbers in other communities.

Several large trees fell over damaging a house and a car.

A cold front moved across southwest Wisconsin in the late evening and early morning hours of August 13 and 14, triggering a line of severe thunderstorms. Law enforcement officials, storm spotters and the public reported wind gusts up to 65 mph, which knocked down trees and power lines.

LA CROSSE COUNTY LA CROSSE [43.80, -91.25]				
08/18/0	3/07 19:40 CST	11.90M	Flash Flood (due to Heavy Rain)	
08/19/0	0/07 06:00 CST	0.15M	Source: Law Enforcement	

Heavy rain led to major flash flooding in the south end of the county, especially south of La Crosse. Mudslides were reported along Highways 35 and 33. There was also major street flooding and water in basements. Parts of a retaining wall washed away at the intersection of Highways 14, 61, and 35 and erosion washed away some smaller roads.

About 644 people applied for FEMA assistance.

VERNON COUNTY STODDARD [43.67, -91.22]					
08/18/07 20:15 CST	28.20M	Flash Flood (due to Heavy Rain)			
08/19/07 06:00 CST	0.50M	Source: County Official			

Flash floods and mudslides were reported across the county, with numerous county roads closed and impassable. Areas significantly impacted were from around Stoddard to Viroqua. At least 79 people were evacuated below local dams. Mudslides were especially dangerous along Highway 35 on the west end of the county washing away some homes and closing the highway for quite sometime. Railroad tracks were also damaged knocking over one set of rail cars that had hazardous material stored.

Over 1,100 people applied for FEMA assistance including 33 businesses in the county.

CRAWFORD COUNTY 2.0 S DE SOTO [43.39, -91.20]				
08/18/07 20:40 CST	20M	Flash Flood (due to Heavy Rain)		
08/19/07 06:00 CST	0.46M	Source: Law Enforcement		

Flash flooding and mudslides were reported over mainly the northern half of the county. Hardest hit areas were in the steep terrain and along Highway 35 from Lynxville to De Soto. Some roads were closed due to flood waters and in one case a large boulder fell on to Highway 35.

In Crawford County, about 415 people applied for FEMA assistance.

RICHLAND COUNTY RICHLAND CENTER [43.33, -90.38]	AND COUNTY RICHLAND CENTER [43.33, -90.38]				
08/18/07 22:16 CST	1	8.80M	Flash Flood (due to Heavy Rain)		
08/19/07 06:00 CST		0.30M	Source: County Official		

Numerous state highways and county roads were closed and impassable due to flood waters. An estimated 75 percent of the county roads were affected including Highway 80 that was impassable with bridges buckled. Highways 56 and 58 were also impacted. At least a dozen boat rescues were needed from homes and cars. The town of Rockbridge was basically underwater. A 51-year old was swept off a bridge on Highway 60 near the intersection of Highway 80 on his way to Muscoda from Mill Creek.

Direct Fatalities: M51VE

Emergency Manager reports Utley road closed. Creeks in the tributaries of the Bad Axe River and South Creek out of their banks.

A slow moving cold front triggered thunderstorms with heavy rains across parts of southwest Wisconsin on the morning of August 27. Excessive rainfall amounts of 2 to 4 inches in two to three hours caused streams and creeks to rise quickly and flood roadways.
